

THE MASTER'S FOUNDATION

So much has changed since our winter newsletter was sent out a couple of weeks ago. Events are rapidly changing by the hour. The eyes of the world are now focused on Ukraine. We are so grateful for the many people who are deeply concerned. The number of individuals and churches who are praying and giving to help Ukraine is unbelievable!

I want to provide you with an update on what The Master's Foundation is actively doing to help the people of Ukraine as major airports, cities and, civilians are being attacked.

To protect those with whom we partner within Ukraine, we cannot use names or places. Much of the communication is now being monitored by the Russians. Here are a few comments that have reached us.

In their own words...

We have need of shelter for us and people who run away from areas of much shelling. Families with children need to be taken out the war zone! Now we urgently need to buy gasoline, a generator, we need blankets, shelter for refugees, food, mattresses, and finances to be able to do this.

As of February 26, 2022, military posts in our area are being shelled, rocket fire is underway! There are many cases of civilian buildings being hit. No one was ready for this war. Our church has now started to prepare hot breakfasts and lunches for the people of the city and the territorial defense of the city - men, and the brave brothers and sisters who transport people to safety during the silence (when the shelling stops and the sirens are not sounding). In many cases, they are rescuing people who are in a state of shock.

We are feeding these people. During the shelling, the church is open and to all people -children, men and elderly women. They are fed and then ushered into the basement. Before the shelling, the sirens go off and during the air threat everyone should be in the shelter with a light and chairs. Meanwhile everyone has the opportunity to pray together and those who believe in God and who doubted but already hope in God.

A generator was purchased, for which we borrowed money. (more are needed) The daughter church from one of the villages has joined in the preparation and delivery of food, and is currently feeding Ukrainian soldiers who are asking for help with socks and food. There is a great need for medicines for the injured civilians (bandages, peroxide hydrogen, painkillers) which, unfortunately, we do not have enough. Food (especially hot lunches, canned food, stews, etc.) is an absolute necessity. Much funding is needed to help relocate the refugees.

What can you do?

- Besides praying for the people, funds are desperately needed to help many of our partners who are taking in refugees, feeding, clothing, and arranging for them to go to Poland or outside the country for their safety.
- Many are fleeing Ukraine from the Eastern Zone, however many are left inside and have tremendous needs as homes have been destroyed, leaving them with no power, water, and lack of food.
- Families with children need to be taken out of the war zone. Gasoline, generators, blankets, houses rented for refugees, food, and mattresses need to be purchased.

We have the ability to provide funds directly to the people who need it.

To Give

Please go to mastersfoundation.org – or call our office at 905.602.1350. If you have any questions please call our office or email us at info@mastersfoundation.org

We will continue to update you as best we can. Go to our website mastersfoundation.org or Facebook page for more information.

We are so appreciative of your concerns, your emails, your calls, and your donations. Pray for the people of Ukraine, especially for those in shock at this violent and sudden attack of their country. Pray for the safety of the vulnerable people and those who are assisting them.

The people of Ukraine bless you and thank God for you!

Stan Watrich & The Master's Foundation Team.
